Cell: 410-375-4466

## **HorseWeigh® Equine Scales Now Available in the United States** F.I.C.S. of Maryland, Inc. is named East Coast Distributor for HorseWeigh®

Baltimore, Maryland – August 4, 2009

In order to better serve the equestrian community, beginning in Summer of 2009 F.I.C.S. of Maryland, Inc. will now be offering the full range of HorseWeigh® Equine Scales to clients from Maine through Virginia. Originating in Wales, HorseWeigh® has been a pioneer in the advancement of equine scale technology since 1992. Though still somewhat of a new concept in the U.S., weighing horses is quickly becoming the standard as breeders, trainers, and equine veterinarians throughout Europe, the Middle East, and the Far East are realizing and appreciating the benefits of weighing.

F.I.C.S. of Maryland, Inc. is a full service business that provides sales, service, and support to their extensive list of equestrian clientele. They have worked with countless farms throughout the East Coast, from small private ones to large-scale, commercial facilities. Their clients come from a variety of disciplines and range from backyard enthusiasts to Olympic champions. In addition to carrying the HorseWeigh® line of equine scales, F.I.C.S. also offers arena footing, harrows, dust control solutions, custom stalls, stable flooring, as well as other stable and arena products and services.

With over 20 years experience in the equine industry, F.I.C.S. of Maryland is looking forward to expanding their business to include the HorseWeigh® line of products. For additional information regarding pricing and availability of HorseWeigh® contact F.I.C.S. online at [www.stableandarena.com](http://www.stableandarena.com) or via telephone at 800-378-4639.
